HISTORY

LA STORIA

Icona di eccellenza italiana nella produzione e progettazione di posate, vasellame, prodotti professionali come buffet e carrelli per il mercato Ho.Re.Ca. e retail, dal 1929 Abert racconta una storia di successo ed evoluzione continua.

Quasi un secolo di storia in cui l'esperienza è sempre stata accompagnata da uno sguardo dinamico verso il futuro. A partire dalle iniziali produzioni in ottone fino all'avvento dei nuovi materiali, il percorso di crescita aziendale ha saputo combinare **tradizione e innovazione** attraverso la progressiva ingegnerizzazione dei processi produttivi e con importanti ampliamenti, **tra cui l'acquisizione dello storico marchio milanese Broggi 1818** (1993), già leader nella posateria e nei complementi per la tavola nel settore alberghiero.

An icon of Italian excellence in the design and production of cutlery, tableware and professional products such as buffets and trolleys for the Ho.Re.Ca. and retail markets, Abert has been telling a story of success and continuous evolution since 1929.

Almost a century of history in which experience has always been accompanied by a forward-looking, dynamic vision. From its early brass productions to the introduction of new materials, the company's growth has skillfully combined **tradition and innovation** through the progressive engineering of its production processes and key expansions - **including the acquisition of the historic Milanese brand Broggi 1818** in 1993, already a leader in cutlery and table accessories for the hospitality industry.

Sotto la guida della **famiglia Bertoli**, generazione dopo generazione, Abert ha maturato una crescente sensibilità verso le evoluzioni del mercato, investendo in nuove tecnologie senza mai perdere i tratti distintivi dello stile aziendale.

Under the leadership of the **Bertoli family**, generation after generation, Abert has developed an increasing sensitivity to market changes, investing in new technologies without ever losing the distinctive traits of its corporate style.

A Lumezzane (Brescia) Antonio Bertoli fonda Abert e intraprende la produzione artigianale di posate in ottone.

In Lumezzane (Brescia), Antonio Bertoli founded Abert and started the artisanal production of brass cutlery.

L'acciaio entra stabilmente nei cicli di produzione prendendo il posto di tutti gli altri materiali.

Successivamente iniziano gli attuali processi industriali, insieme all'automatizzazione produttiva.

Steel became a permanent material in the production cycles, replacing all other materials.

Subsequently, modern industrial processes and production automation began.

Abert è la prima azienda al mondo a ingegnerizzare i processi per la produzione di posate colorate, con la combinazione di acciaio inossidabile e materiali come ABS, nylon e legno.

Abert became the first company in the world to engineer processes for producing colored cutlery by combining stainless steel with materials such as ABS, nylon, and wood.

La sede aziendale viene trasferita a Passirano (Brescia). Nello stesso anno, insieme ad altre due aziende, Abert fonda PROGESA, introducendo un approccio industriale rivoluzionario che prevede l'utilizzo di tecnologie avanzate - tipiche dei settori automotive e aeronautico - nella progettazione di stampi e posate. Si tratta di un'innovazione straordinaria per l'epoca, che ridefinisce gli standard produttivi del settore, anticipando le moderne tendenze industriali.

The company headquarters was moved to Passirano (Brescia). In the same year, together with two other companies, Abert founded PROGESA, introducing a revolutionary industrial approach by using advanced technologies - typical of the automotive and aerospace sectors - in the design of molds and cutlery. This innovation redefined production standards in the industry and anticipated modern industrial trends.

Abert acquisisce Broggi, storico marchio milanese leader di mercato nella posateria e nei complementi d'arredo per la tavola nel settore alberghiero.

Abert acquired Broggi 1818, a historic Milanese brand and market leader in cutlery and table accessories for the hospitality sector.

Abert è la prima azienda del settore a ottenere la certificazione di qualità ISO 9002. Nello stesso anno acquisisce FACIX di Passirano, destinata a diventare il polo produttivo del Gruppo.

Abert's logistics and production structure was completely reorganized, dedicating 8,500 sqm to a single production area where the entire cutlery production cycle takes place, and 20,000 sqm to the logistics area.

Abert acquisisce il marchio Inoxbeck-Becchetti con l'obiettivo di accrescere il know-how nello sviluppo e nella produzione di vasellame in acciaio.

Abert acquired the Inoxbeck-Becchetti brand to increase know-how in the development and production of steel tableware.

Abert intraprende il processo di informatizzazione della logistica con l'introduzione del WMS - Warehouse Management System. La nuova ottimizzazione dei flussi logistici, dalla ricezione al tracciamento della merce, consolida l'efficienza e la qualità che contraddistinguono il servizio al cliente.

Ciclo di produzione

Il ciclo di produzione di forchette e cucchiai inizia con l'operazione di tranciatura (1). Per diminuire lo spessore della tazza rispetto al manico, si procede poi con la laminazione (2), e si prosegue con la rifilatura (3), per dare la forma della tazza o dei rebbi alla posata laminata. infine si passa alla coniatura (4), nel corso della quale vengono dati la forma e i decori necessari. Per la lavorazione dei coltelli monoblocco forgiati si parte con la tranciatura del tondino in uno spezzone (1), che viene successivamente coniato a caldo (2), in modo da conferirgli una prima forma. Si prosegue con la tranciatura del manico (3) e con l'allungamento della lama (4); in seguito viene effettuata la tranciatura della lama (5), in modo da darle la forma reale. A questo punto rimane da definire la seghettatura sulla lama (6) e rifinire il coltello con le normali operazioni di pulitura. Le fasi di lavorazione dei coltelli a manico cavo forgiati parte con la tranciatura delle valve (1). Le due valve che costituiranno il manico cavo vengono coniate a freddo (2), per dare loro la convessità e i decori, e poi vengono accoppiate e saldate (3): ecco il manico del coltello infine, attraverso un composto autobloccante, viene assemblata e saldata al manico la lama (4), prodotta con le stesse tecniche dei coltelli monoblocco forgiati.

Cutlery manufacturing process

Shearing (1) is the first step in the process of manufacturing forks and spoons. Rolling (2) is used to reduce the bowl thickness compared to that of the handle, and the next step is trimming (3) to give the shape of a bowl or prongs to the laminated implement. The final step is coining (4) during which the implement is shaped and ornamentation stamped. To make forged solid-handle knives the process begins by shearing a bar into a blank (1) that is then hot coined (2) so as to give it some initial shape. Afterwards the handle is sheared (3) and the blade is stretched (4). Then, the blade is sheared (5) so that it takes its final shape. Now blade serration (6) needs to be defined and the knife has to be polished as usual. The first step to make forged hollow-handle knives is shearing the shells (1). The two half-shells that will form the hollow handle are cold-coined (2) to obtain the convexity and stamp the decoration; afterwards the shells are coupled and welded (3). And that is how the knife handle is ready. Finally and by using a self-locking compound the blade, made applying the same techniques used to make forged solid-handle knives, is coupled and welded to the handle (4).

Istruzioni d’uso e di manutenzione per la posateria e il vasellame in acciaio Inox

Lavare accuratamente i prodotti nuovi prima di utilizzarli.
Utilizzare per il lavaggio acqua calda ed un buon sapone neutro, risciacquare in seguito con abbondante acqua tiepida ed asciugare scrupolosamente tutti gli articoli.
Non utilizzare per il lavaggio detersivi sintetici a base di cloro o prodotti comunque candeggianti.
Pomice, paglietta d’acciaio, spugnette o panni impregnati di polveri abrasive devono essere altresì rigorosamente esclusi.
Possono invece essere utilizzati detersivi non clorurati contenente farina fossile.
È consigliato il lavaggio degli articoli in acciaio Inox subito dopo il loro utilizzo. Qualora questo non fosse possibile è comunque importante non lasciare per più di 12 ore gli articoli sporchi a contatto con i residui alimentari (es: in caso di utilizzo degli articoli a pranzo, andrebbero lavati entro la sera del giorno stesso; in caso di utilizzo degli articoli a cena, andrebbero lavati entro la mattina del giorno seguente).
Nel caso fosse necessario un prelavaggio, questo deve essere fatto appena prima del lavaggio e per un tempo relativamente breve. Gli articoli non vanno infatti lasciati in ammollo nella soluzione lavante per troppo tempo in quanto alcune sostanze contenute negli alimenti sono dannose per l’acciaio Inox e ne alterano l’aspetto. I coltelli e le lame dei coltelli (in caso di articolo a manico cavo) prodotte con un pregiato acciaio

inox, sono sensibili agli attacchi corrosivi sviluppati dall’acido acetico, citrico, lattico ed in particolare da cloruro di sodio, presenti negli alimenti.
È importante, sia in fase di prelavaggio che durante il lavaggio, tenere separate le normali posate (cucchiiai, forchette, cucchiaini) dai coltelli e da altri oggetti metallici presenti in cucina.
Nel caso di lavaggio in lavastoviglie le posate devono essere inserite in cestelli verticali di plastica e tenute separate dai coltelli.
Asciugare accuratamente gli articoli con un panno morbido subito dopo il lavaggio, anche se il lavaggio è eseguito in lavastoviglie che prevede un ciclo di asciugatura automatica. Questo è necessario per evitare l’eventuale formazione di macchie dovute a depositi calcarei contenuti nell’acqua.
Non lasciare le posate nell’ambiente umido della lavastoviglie una volta terminato il ciclo di lavaggio, ma asciugarle e riporle in un ambiente asciutto.
Si consiglia di conservare gli articoli perfettamente asciutti, in un ambiente privo di umidità.
Per evitare rigature si consiglia di non conservare alla rinfusa gli articoli ma di riporli ordinatamente e proteggerli con un panno morbido.

Instructions for use and maintenance of stainless steel cutlery and hollowware

Wash the new products carefully before use.
Use hot water to wash them and a good neutral detergent; then, rinse out with lukewarm water and dry all the items thoroughly.
When washing, do not use chlorinated detergents nor products containing bleach.
Pumice, steel wool, sponges or cloths saturated with abrasive powders must be strictly avoided. However, detergents without chloride containing fossil flour can be used.
The washing of stainless steel items after use is recommended. in case that would not be possible, it is however important not to leave for more than 12 hours the dirty items in contact with food leftovers (e.g.: if the items are used at lunch, they should be washed within the evening; if the items are used at dinner, they should be washed within the following morning).
in case a prewash was needed, it must be carried out just before the washing and for a relatively short time. in fact, the items must not be soaked in the washing solution for too long, since some substances contained in food are damaging for the stainless steel and change its appearance. Knives and knife blades (for hollow handle items) are manufactured with a valuable stainless steel and are sensitive to the corrosion

attacks developed by acetic, citric and lactic acid and in particular to sodium chloride present in food.
It is important, both when pre-washing and washing, to keep cutlery like spoons, forks and tea spoons, separated from knives and other metal kitchenware.
in case of washing in dishwasher, spoons and forks must be placed into plastic vertical baskets and kept separated from knives.
Dry the items thoroughly immediately after the washing with a soft cloth, even if your dishwasher has a dry cycle.
That is necessary in order to avoid the possible formation of stains caused by calcareous deposits contained in the water.
Do not leave the cutlery in the humid environment of the dishwasher once the washing finishes; dry them and store them in a dry place.
It is recommended to storage the items perfectly dried and in a location without humidity.
in order to avoid scratches, it is recommended not to keep the items randomly, but if it is possible, to protect them by soft cloth.

Celsius è il nuovo piatto che mantiene costante la temperatura delle pietanze senza continuare il processo di cottura, per conservare al meglio il gusto di ogni ricetta.

Design moderno ed essenziale, che si abbina a ogni mise en place e innovativa funzionalità grazie alla presa ergonomica della base in legno, che protegge dalle scottature.

La piastra in ghisa viene riscaldata in forno, regolando temperatura e tempo a seconda della pietanza, per poi essere posizionata sotto il piatto in acciaio che, a contatto con gli alimenti, mantiene costante la temperatura del cibo durante il pasto.

Celsius è un prodotto igienico e di facile pulizia: il piatto in acciaio (unica componente a contatto con gli alimenti) è comodamente lavabile in lavastoviglie, a differenza delle pietre ollari che assorbono i grassi, non sono lavabili e alterano lo stato di cottura delle pietanze.

Celsius è disponibile in due misure per rispondere a ogni esigenza, dal singolo posto tavola ai momenti di convivialità, e alle diverse tipologie di pietanze come ad esempio le carni e la pizza. Celsius: per non servire più cibi freddi!

Celsius is the new plate that keeps food temperature constant without continuing the cooking process, to best preserve the taste of every recipe.

Modern and essential design, matching with every place setting, and innovative functionality, thanks to the ergonomic grip, and the wood base, that protects from burning.

The iron cast is warmed into the oven, adjusting temperature and time based on the food; then it is placed under the steel plate that, in contact with food, keeps its temperature constant during the meal.

Celsius is a healthy product and easy to clean: the steel plate (the only component in contact with food) is dishwasher safe while, for instance, soapstone, that absorbs fat, is not washable and alters food cooking.

Celsius is available in two sizes to meet every need, from individual place settings to shared dining occasions. It is suitable for serving a wide variety of dishes, including meat, pizza, and many other specialties. Celsius: no more serving cold food!

Die Buffetkollektionen vereinen Funktionalität und Design und passen sich mühelos an jede Serviersituation sowie an unterschiedliche Anforderungen und Stilrichtungen an.

Oggi allestire signi ca progettare un’esperienza.
Per molto tempo il buffet è stato inteso solo come insieme di elementi funzionali, più o meno coordinati e destinati a rimanere immutabili nel tempo.
Ma è possibile immaginare un’altra direzione: **più aperta, più essibile, più personale.**
La gamma buffet Abert Horeca nasce proprio da questa idea. Un sistema completo, immaginato e realizzato per accompagnare ogni momento del servizio e adattarsi con naturalezza a contesti, esigenze e stili differenti.
Dai supporti ai complementi, dagli accessori per il servizio a quelli dedicati alla cottura, no ai carrelli, **ogni elemento dialoga con gli altri** e amplia ulteriormente le proprie possibilità progettuali grazie alle contaminazioni creative con la linea **AB+**, che ne estende le possibilità compositive e progettuali.

Non esiste più un unico modo di interpretare lo spazio.
Materiali, forme, texture e colori diventano veri e propri strumenti di progettazione, ispirati all’equilibrio spontaneo della natura.
Toni della terra, super ci materiche, niture che richiamano la luce e linee essenziali si incontrano spontaneamente, come elementi di uno stesso ecosistema.
Ogni prodotto nasce per affiancare gli altri, mescolarsi, contaminarsi e dare vita a composizioni **in continua evoluzione.**
Basta un accostamento inedito, un tocco o un dettaglio inatteso per trasformare il linguaggio di un allestimento assumendo identità nuove e sorprendenti.
Da un’estetica nordica a una mediterranea, dal look rustico a quello contemporaneo, da un equilibrio minimal a uno più caldo e materico. A cambiare non sono soltanto gli oggetti, ma il modo in cui raccontano l’ambiente

La versatilità diventa libertà progettuale.
Ogni collezione della gamma buffet di Abert Horeca è sviluppata per convivere con le altre ed **evolvere nel tempo**, senza dover ricominciare ogni volta da zero.
Un sistema aperto, essibile e intercambiabile, che cresce insieme ai progetti, adattandosi alle dimensioni degli spazi, alle occasioni di servizio e ai bisogni di chi li interpreta.
Il risultato è **l’equilibrio naturale tra praticità, semplicità ed emozione**, dove il design non vive nell’eccesso, ma nella capacità di far sentire le persone a proprio agio, **trasformando ogni buffet in una destinazione di autentica accoglienza.**

MIX AND MATCH COLOURS AND LINES

DAI **FORMA E COLORE** AL TUO **BUFFET**

Today, creating a buffet display means designing an experience
For many years, the buffet was seen simply as a collection of functional elements, more or less coordinated and intended to remain unchanged over time.
But there is another way to imagine it: **one that is more open, more flexible and more personal.**
The Abert Horeca Buffet Collection was created from this very idea. A complete system, conceived and designed to support every stage of service while adapting naturally to different settings, requirements and styles.
From display stands to complementary pieces, from serving accessories to cooking solutions, through to trolleys, **every element works in harmony with the others.** Its design potential is further enhanced through creative combinations with the **AB+** collection, extending the possibilities for composition and customisation.

There is no longer just one way to interpret a space.
Materials, shapes, textures and colours become true design tools, inspired by the effortless balance found in nature. Earthy tones, tactile surfaces, light-reflecting finishes and clean, essential lines come together naturally, like elements within the same ecosystem. Every product is designed to complement the others, blending and interacting to create **ever-evolving** compositions. A single unexpected pairing, a subtle touch or an original detail is enough to transform the visual language of a buffet display, giving it a fresh and distinctive identity. From Nordic to Mediterranean aesthetics, from rustic charm to contemporary elegance, from minimalist balance to warmer, more tactile interiors. What changes is not simply the objects themselves, but the way they tell the story of the space.

Versatility becomes design freedom.
Every collection within the Abert Horeca Buffet range has been developed to work seamlessly alongside the others and **evolve over time**, without the need to start again from scratch. An open, flexible and interchangeable system that grows with each project, adapting effortlessly to different spaces, service occasions and the needs of those who bring them to life. The result is a **natural balance between practicality, simplicity and emotion**, where design is defined not by excess, but by its ability to make people feel genuinely at ease, **transforming every buffet into a destination of authentic hospitality.**

EVERY SPACE. A **NEW** IDENTITY.

OGNI AMBIENTE. UNA **NUOVA** IDENTITÀ.

Diverse interpretazioni. Un'unica filosofia.
Nelle pagine successive la versatilità delle collezioni Abert Horeca prende forma attraverso alcuni esempi di ambientazione che mostrano come materiali, colori e finiture possano dialogare raccontando i tanti modi di vivere il buffet.

Ogni composizione esplora un'atmosfera specifica e all'interno dei singoli capitoli sono inoltre riportati i riferimenti alle collezioni utilizzate e alle materie prime protagoniste, offrendo una guida completa alle possibilità di configurazione del sistema.

Non per suggerire un unico modo di allestire, ma per ispirarne in infinite.
Perché la vera versatilità non significa solo offrire più soluzioni, ma lasciare spazio a interpretazioni sempre nuove.

Different interpretations. One philosophy.
In the following pages, the versatility of the Abert Horeca collections takes shape through a series of setting examples, showing how materials, colours and finishes can interact to express the many different ways of experiencing the buffet.

Each composition explores a specific atmosphere, while the individual chapters also include references to the collections used and the featured raw materials, providing a complete guide to the system's configuration possibilities.

Not to suggest a single way of creating a buffet display, but to inspire endless possibilities.
Because true versatility is not only about offering more solutions, but about creating space for ever-new interpretations.

Parola d'ordine: luminosità e naturalezza, per un allestimento che prende forma dalle suggestioni dei paesaggi mediterranei. Tonalità chiare che ampliano la luce, come le architetture affacciate sul mare, e dettagli cromatici che evocano l'incontro tra cielo, vegetazione e acqua danno vita a un buffet ricco di vitalità.

The key words: brightness and naturalness, for a setting inspired by the beauty of Mediterranean landscapes. Light tones that enhance brightness, like the architecture overlooking the sea, and colour accents that evoke the meeting point between sky, vegetation and water come together to create a buffet full of vitality.

Il carattere deciso del nero incontra l'iconica texture del legno e i riflessi del rame, trasformando anche uno spazio compatto in un punto di incontro ricco di personalità. Una soluzione dinamica che dimostra come bastino pochi elementi per costruire un'atmosfera riconoscibile.

The bold character of black meets the iconic texture of wood and the reflections of copper, transforming even a compact space into a meeting point full of personality. A dynamic solution that shows how just a few elements can be enough to create a distinctive atmosphere.

JAMBEE

Un oggetto elegante e contemporaneo, adatto a ogni tipo di buffet: grazie al design unico e innovativo. I materiali usati sono di alto livello qualitativo - acciaio Inox 18/10 e metacrilato - rendono il distributore un oggetto pregiato. MADE IN ITALY. La tecnologia semplice, ma al tempo stesso funzionale, permette di erogare dosi da 8gr (0.28 oz) di prodotto, riducendo gli sprechi ed eliminando le monoporzioni da 25gr (0.88 oz). Questo consente un risparmio di prodotto e la riduzione dei rifiuti nel rispetto dell'ambiente. Inoltre è ideale per servire miele

e marmellate di produzione artigianale, per fornire un prodotto di alto livello e che soddisfa anche i clienti più esigenti. Un ottimo modo per arricchire l'esperienza della colazione, mantenendo ordinato e pulito il buffet. Utilizzabile con prodotti erogabili semisolidi, come confetture, marmellate pure con piccoli frammenti di frutta e creme, ma anche con miele, sciroppi e salse di analoga consistenza. Jambee è l'ideale per ogni struttura ricettiva: alberghi, pasticcerie, bar e ristoranti.

An elegant and modern object for all buffets, thanks to its unique and innovative design. The materials used are high quality - 18/10 stainless steel and methacrylate - which makes the dispenser a fine object. MADE IN ITALY Its simple technology, though functional, allows to dispense 8 gr (0.28 oz) product doses, to reduce waste and get rid of 25 gr (0.88 oz) single dose jars. That allows, as well, to save on product and reduce waste, respecting the environment. Moreover, it is the ideal to dispense honey and homemade jams, in order to supply for a high-end product, capable of meet-

ing even the most demanding customers' needs. The best way to make the most of the breakfast experience, keeping the buffet tidy and clean. It can be used with dispensable semisolid products like preserves, marmalades - even with small fruit pieces in them -, creams and honey, syrups and sauces as well, which have the same consistency. Jambee is the ideal for any accommodation facility: hotels, pastry shops, bars and restaurants.
