ABOUT THE X TRAY COLLECTION

The X Tray Risers offer a unique blend of functionality and visual appeal, making them ideal for both practical use and enhancing the aesthetic of food presentations. Their distinctive proportions allow for creative arrangements, adding an artistic touch to buffets or contemporary dining setups. Whether you choose to place food directly on the trays or in separate dishes, the X Tray Risers elevate the presentation, creating an exceptional dining experience. Their versatility makes them a valuable addition to any food and beverage setting, where both form and function are essential considerations.

MATERIALS

The X Tray Risers boast a construction that's not only durable but also environmentally friendly. Crafted entirely from 100% bamboo, they exemplify sustainable design. The tray system utilizes two distinct bamboo techniques: vertical natural color bamboo boards and dark carbonized strand woven bamboo legs. By combining these two bamboo techniques, the X Tray Risers achieve a harmonious balance of durability, functionality, and eco-friendliness. Bamboo, as a renewable resource, ensures that the tray system is not only built to last but also minimizes its environmental impact.
