NEW

Spring / Summer 2025

We're excited to introduce our biggest launch to-date, with over ***300*** new products of which many are brand new collections! Our newly introduced lines cater perfectly to the diverse needs of the hospitality and catering sectors.

Introducing the ***Incise©*** collection, a brand-new ***Vitrified Porcelain*** tableware category – comprising of ***Lucine***, ***Lustre***, ***Lavara*** and ***Solara***. All of which feature embossed designs, adding texture and sophistication to food presentation.

Sabrosa©, our new twice-fired ***Vitrified Terracotta*** collection of tapas plates, dishes and bowls will captivate any table setting with their vibrant colours.

Discover a new addition to our ***Terra© Vitrified Porcelain*** collection, that of ***Cinder Black Fluted***. A striking new range that redefines elegance with bold, architectural design.

Two new colours have been added to our ***Kava© Stoneware*** collection, boasting a harmonious fusion of a textured ***Black*** or smooth ***Dark Grey*** glaze with a tactile unglazed finish, forming a captivating contrast for culinary creations.

Be sure to check out the two new colours within ***Coloured Beverage***, ***Coral*** and ***Matt Teal***; as well as many new additions to our ***Table Presentation***, ***Table Service***, ***Drinkware***, ***Barware***, ***Buffet & Display*** and ***Trays*** categories.

VITRIFIED PORCELAIN

Truly Unique

A glaze formula combined with high-temperature firing makes no two pieces look exactly alike. Colour intensity varies from piece to piece, creating a truly distinctive look.

Fully Vitrified

Low water absorption, more hygienic protection against bacterial growth, and improved heat retention properties.

Conforms to BS4034 Quality Standard

Every piece is subject to rigorous quality checks to ensure product quality.

Polished Foot

Reduces damage when stacked and stored.

Microwave, Dishwasher, Oven & Freezer Safe

Perfect for heating and cleaning requirements and protection against damage caused by thermal shock and temperature fluctuations.

High Temperature Firing

The twice firing process, up to 1,320°C ensures each product is strong and durable.

Rolled Edge

More durable and functional for added chip-resistance in busy kitchen environments.

5 Year Chip Warranty

Extended warranty, on selected lines, is testament to the strength and durability of the collection.

STONEWARE

Antigo© stoneware reflects the passage of time, which, combined with the beauty of craftsmanship, brings a one-of-a-kind collection of tableware.

Available in **2** colours; our rustic **Antigo©** and the sandy **Antigo© Barley** colours, it can perfectly enhance the dining experience.

Made from stoneware with stone-like qualities, the natural variations in the reactive glaze tell a tale of timeless elegance.

VITRIFIED TERRACOTTA

Sabrosa©, the next generation of classic terracotta is designed to meet the demands of todays hospitality professionals. While honouring the warmth and charm of traditional terracotta, **Sabrosa©** takes it further with superior durability and modern versatility.

Crafted from premium **Vitrified Terracotta** each piece is twice fired, up to **1,150°C**, making it significantly stronger, less porous, and more resistant to chips than standard terracotta.

Sabrosa© items are built for professional use, offering the elegant, rustic appeal of terracotta while withstanding the rigors of everyday kitchen use.

Perfect for oven to table dishes, **Sabrosa©** delivers performance and presentation, ensuring a vibrant and warm dining experience.

Every piece is unique due to the natural effects and spontaneous reactions which occur in the kiln. Whether selecting **Lila** with its purple hues, or **Luna** reminiscent of the moon; combining the different designs will be sure to make a statement!

Sabrosa is especially well suited for Spanish tapas, Mediterranean brunches and Mexican cuisines.

Our range of classic Enamelware is a traditional yet retro english style. The vitreous, double-coated Enamel resists stains, scratches and improves product durability. Like any other ceramic, the outer porcelain layer can chip over time, especially if dropped, revealing the steel beneath it. When this happens, the steel below naturally oxidises, and the Enamelware remains safe to use and adds character.
